

### Heightened Security Risk Regions

The list below only includes regions with a travel security risk rating of medium, high or extreme. All other regions are considered low or variable security risk. Click on the name of each region to review a travel risk summary and/or click on the travel warning icon (“TW”) to read the current U.S. Department of State Travel Warning.

**Please note:** The ratings below depict security risk only, not health risk. For information related to travel health, please visit the CDC website and click on [Travelers’ Health](#).

- TW** U.S. Department of State has issued a Travel Warning for this country  
**†** Office of Foreign Asset Controls (OFAC) has issued sanctions for this country. For more information, visit the [OFAC](#) website or contact Penn’s [Office of Export Controls](#).
